Professional Profile

As a skilled Frontend Developer, I am proficient in designing and developing high-quality web applications and websites that are responsive and performant. I have extensive knowledge of HTML, CSS, and JavaScript, and I am well-versed in using various libraries and frameworks to achieve optimal results. I am committed to staying up-to-date with the latest tools and technologies, and I am always eager to learn new skills and best practices to improve my craft.

Currently, I am experimenting with the implementation of Artificial Intelligence, specifically Large Language Models, in web development. I kindly invite you to visit my website, where you can gain insight into my skills and view some of the projects I have worked on.
